

THE TRANSITION ADVANTAGE

TRANSITION PERSPECTIVE

EXPERIENCE

More than 20 years experience manufacturing networking equipment

QUALITY

99.4% Customer Appreciation Rating—meaning that approximately one in one thousand units experiences some sort of failure in the field

SUPPORT

100% Free Unrivaled Technical Support

WARRANTY

Hassle-free Lifetime Warranty

CHANNEL

100% Channel Sales

WHY TRANSITION NETWORKS?

With a history of reliability and quality, Transition Networks has created a portfolio of fiber connectivity hardware that makes networks perform better, faster, and more reliably. These fiber devices allow network managers to adapt and harness the performance advancements required by today's ever-evolving networks, all while leveraging their existing infrastructure investment. Whether it be the office floor, the factory floor, or beyond; Transition Networks offers a complete fiber connectivity product portfolio designed to facilitate low-cost network evolution.

FEATURES AND BENEFITS

- Intelligent, low cost solutions for deploying fiber in a network
- Custom solutions designed on an individual customer basis
- High density rack mountable solutions available to maximize space efficiency
- Industrial, enterprise, service provider, and substation equipment from a single source
- SNMP manageable solutions including a free GUI based software program (FocalPoint)
- Support for 10/100/1000 Ethernet based solutions as well as TDM and other communications protocols (T1/E1, T3/E3/DS3, POTS, E&M, OCx, Fibre Channel, RS232/422/485, V.35, X.21)

YOUR NETWORK.

EXTENSIVE PRODUCT PORTFOLIO

- Fiber to Copper Media Conversion
- Managed and Unmanaged Switches
- Coarse Wave Division Multiplexing (CWDM)
- Industrial Networking
- Security and Surveillance
- NICs, SFPs, and GBICs
- Power-over-Ethernet Switches, Converters, and Accessories

UNPARALLELED TECH SUPPORT AND WARRANTY

- No charge for pre-sales application assistance
- No charge for post-sales technical support (24 hours a day)
- Free software updates
- Unrivaled lifetime warranty on Transition Networks branded products

TARGET MARKETS

Transition Networks has had continued success as a fiber connectivity device vendor for the following vertical markets:

Enterprise
Government
Service Provider
Retail
Industrial
Education
Healthcare
